### **\*#10 Build Out Line Rule (U9 & U10) Play**

The build-out line as defined by US Soccer promotes playing the ball out of the back in a less pressured setting. The build out line is subject to the following rules:

#### **MARKING THE BUILD OUT LINE:**

The build out line is to be placed halfway between the center line and the penalty area line. It may be (a) painted at the touchline or extended by a dashed line across the field (preferably in a different color than the field lines) or (b) marked by low cones, flat soft and pliable markers or flags at least one yard off the field from the touchline. If no markers are provided, then the referee shall designate the build out line in any reasonable manner other than painting.

#### **OFFSIDE**

The build out line on the attacking part of the field replaces the halfway line as the point behind which a player cannot be in an offside position.

#### **GOAL KICKS:**

The team not taking the goal kick must retreat behind the build out line on a goal kick. The team taking the goal kick may not take the goal kick until the opposing team has moved behind the build out line. The opposing team may not come past the build out line until the ball has been kicked and moved.

#### **KEEPER SAVES – NO QUICK RELEASE**

The opposing team must retreat behind the build out line on a keeper save. The keeper is permitted to wait until the opposing team does so and the 6 second limitation on keeper possession does not start until the opposing team retreats behind the build out line. The opposing team, having moved behind the build out line, may cross the build out line once the keeper releases the ball from in hand possession.

#### **KEEPER SAVES – QUICK RELEASE**

The opposing team must always make a good faith effort to retreat behind the build out line on a keeper save. The keeper is permitted to release the ball before the opponents retreat behind the build out line. In such cases, the opponents may not challenge the ball until (a) the keeper has placed the ball at his or her feet or (b) the keeper has released the ball to a teammate located between the GK's own goal and the build out line on that side of the field and the teammate has had an opportunity to receive the ball without pressure. In such cases, the opponent need not retreat behind the build out line before becoming involved with play.

#### **VIOLATIONS BY OPPOSING TEAM**

If an opponent violates the prohibitions above on a goal kick or keeper release, the referee must stop play and award an IFK at the spot of the infraction to the team entitled to the protections of the build out line rule.

#### **KEEPER SAVES – LIMITATION ON KEEPER**

The goalkeeper may not punt or drop kick the ball. If the keeper does so, the referee must stop play and award an IFK to the opposing team from the spot of the infraction, subject to Law 13.

#### **DEFENSIVE TEAM FREE KICKS WITHIN BUILD OUT LINE**

Normal FK distance rules apply. The build out line rule is not applicable to free kicks within the build out line areas.
